SECTION I

HERBICIDES

PRODUCT	DESCRIPTION	PKG SIZE
ACCLAIM EXTRA	Selective post-emergence of annual and perennial grass in turfgrasses. Refer to label for specific rates and weeds controlled.	2x2.5 GAL/CS
AMINE, 2,4-D	2, 4-D Amine selective broadleaf killer. Labeled for aquatic weed control.	2x2.5 GAL/CS
AQUA STAR	Broad spectrum aquatic herbicide containing 53.8% glyphosate. For use in and around water. Fast, effective control of aquatic weeds.	2x2.5 GAL/CS 30 GAL/DR
ATRAZINE 4L	Selective Triazine herbicide used for pre-emergence and early spring post-emergence.	2x2.5 GAL/CS
BANVEL	Dicamba: controls hard to kill broadleaf weeds, woody stem plants and small trees and shrubs. Generally in rights-of-ways.	4x1 GAL/CS
BARRIER (DYCLOMEC, 4-G)	Selective herbicide for grasses and broadleaf weeds in woody ornamental plantings. Pre and post activity. Can be used under asphalt.	50 LB/BAG
BASAGRAN T/O	Post-emergent herbicide for the control of broadleaf weeds, annual sedges and yellow nutgrass. Labeled for most varieties of turfgrass and ornamentals.	5x1 GAL/CS
BASAMID	Soil fumigant; use as a pre-plant control for most weeds, nematodes and soil diseases.	50 LB/BAG
BENSUMEC 4LF	Bensulide 4 lbs./gallon, pre-emerge herbicide control of broadleaf weeds and annual grasses. For applications on golf course greens.	2x2.5 GAL/CS
BLADE/MANOR	Controls Bahiagrass in established Bermudagrass and St. Augustinegrass areas. Low use rates also control many broadleaf weeds and other grasses including foxtail and ryegrass.	4x2 OZ/CS
BROADSTAR	Provides pre-emergent control in container and field grown shrubs, trees and ground covers. Very effective against bittercress, spurge, liverwort and many other annual weeds.	50 LB/BAG
BRUSHMASTER	A low odor, low volatile ester brush control formulation that can be mixed with water for foliar treatment or mixed with oil for frill, basil bark or cut stump treatment.	12x1 QT/CS
CERTAINTY	A selective herbicide for control of annual and perennial sedge, grasses and broadleaf weeds in highly managed turf sites.	10x5 OZ/CS
CONFRONT	A broad spectrum weed control for broadleaf weeds in established cool season and warm season turf.	4x1 GAL/CS
COOL POWER	Ester formulation of MCPA, triclopyr and dicamba for excellent weed control during cool weather.	2x2.5 GAL/CS 30 GAL/DR
CORSAIR	Controls tall fescue, ryegrass, wild onions and garlic for all turfgrasses except tall fescue, buffalograss, ryegrass and dichondria.	4x2 OZ/CS
DACTHAL W-75	Pre-emergence application for control of crabgrass and other annual grasses and certain broadleaf weeds on mineral soils in ornamental turf and nursery stock.	6x4 LB/CS
DIMENSION EC	Pre-emergent herbicide for the control of crabgrass, goosegrass and small seeded broadleaf weeds. Early post-emerge for crabgrass. Second application in early spring for best results.	2x2.5 GAL/CS 30 GAL/DR
DIMENSION ULTRA WSP	Pre-emergence control of crabgrass and pre-emergence control of several annual grasses and broadleaf weeds on golf courses (including greens). Less volatile formulation.	8x8x5 OZ/CS
DIQUAT or REGLONE	Contact herbicide and aquatic weed control. Refer to label for application rates.	2x2.5 GAL/CS

SECTION I

HERBICIDES

PRODUCT	DESCRIPTION	PKG SIZE
DRIVE	Pre- and post-emergence weed control for certain grassy and broadleaf weeds. Can be added to Regalkade for post-emerged crabgrass control. Use for torpedo grass control.	6x1 LB/CS
ENVOY	Post-emergent control of annual and perennial grasses with no injury to most valuable shrubs and trees. Rainfast in one hour.	12x1 QT/CS
ESCORT	Controls unwanted woody plants and annual and perennial weeds.	16 OZ/CT
FINALE	Non-selective systemic herbicide for broad spectrum control of grasses and broadleaf weeds. Fast acting, quick results. Can be mixed with glyphosate for more effective control.	2x2.5 GAL/CS
GALLERY 75DF	A selective pre-emergence herbicide for control of certain broadleaf weeds in established turf, landscapes, container-grown ornamental, nursery stock, etc. Can be tank mixed with RegalKade 65 WDG for better and longer control of grasses.	6x4x1 LB/CS
RANGER PRO (GLYPHOSATE)	A non-selective herbicide that controls plants that it contacts. It enters through the leaves and moves through the plant into the roots. Contains surfactant.	2x2.5 GAL/CS 30 GAL/DR
GOAL 2XL	Grass and broadleaf herbicide with pre- and post-emergent herbicide activity. Labeled for ornamental plants. May be sprayed over the top of some ornamental plants.	2x2.5 GAL/CS
GRAMOXONE MAXX	Non-selective herbicide for weeds and grasses. Formally known as Paraquat. Restricted use product. Use extreme caution when handling.	2x2.5 GAL/CS
HORSEPOWER	Premium post-emergence broadleaf herbicide for hard-to-kill weeds; 2, 4-D free.	2x2.5 GAL/CS
ILLOXAN	Selective post-emerge herbicide to control goosegrass and crowfoot in established warm season turfgrass. Golf courses only (Including greens).	4x1 GAL/CS
IMAGE 70DG	A unique, versatile herbicide that will control or aid in the control of nutsedges, dollarweed, kyllinga, field sandbur, ryegrass and other weeds in warm season turf and select ornamentals.	10x1 1.43 OZ/CS
KERB WSP	Pre-emergent and post-emergent herbicide for poa annua, winter annuals, and perennial grasses in established turfgrass. (warm season turf)	12x3x1 LB/CS
LONTREL	A selective post-emergent herbicide for the control of broadleaf weeds in non-residential turf, ornamental plantings, landscapes and nurseries.	12x1 QT/CS
MANAGE	Selective post-emergence control of yellow and purple nutsedge in turfgrasses and woody ornamental plantings.	10x1.3 OZ/CS
MANOR/BLADE	Selective herbicide to control bahiagrass in bermudagrass. Control of perennial grasses and certain broadleaf weeds including dandelions.	4x2 OZ/CS
MILLENNIUM ULTRA II	A selective post-emergent weed control for dandelion, chickweed, black medic, oxalis, clover and many other broadleaf weeds.	2x2.5 GAL/CS 55 GAL/DR
MSMA+SURFACTANT	Post-emergent grassy weed control for bermudagrass fairways.	2x2.5 GAL/CS
ORNAMEC "OVER THE TOP"	Selective post-emergent grass herbicide for landscape beds, ground covers and ornamental plantings. Can be applied over the top of broadleaf plants.	12x1 QT/CS
PENDULUM	Pre-emergent control of many annual grasses & broadleaf weeds. Split applications. Pendimethalin is active ingredient.	2x2.5 GAL/CS
PRE-SAN 12.5 G	Granular formulation of Bensulide herbicide for pre-emergent weed control. Labeled for golf course greens.	50 LB/BAG

SECTION I

HERBICIDES

PRODUCT	DESCRIPTION	PKG SIZE
PROGRASS EC	Pre and post-emergent herbicide for poa anna and many winter weeds in overseed bermuda and perennial ryegrass. Also used on bentgrass greens for control of Poa annua. Single or split applications.	2x2.5 GAL/CS
REGAL 0-0 HERBICIDE	Unique pre-emergent herbicide for container grown ornamentals and field grown. Non-root pruning. Apply 100 lbs./acre for 3-6 month control, includes escape weeds from other products. Single or multiple applications. Best when applied from September to April.	50 LB/BAG
REGALKADE 65 WDG	Long residual pre-emergent herbicide for turfgrass and landscape use. Broad spectrum weed control for spray applications. Labeled for golf course and home lawns. One application can last for one entire growing season. For dry granular uses, see RegalKade. Nursery use in containers and in field grown nursery.	6x5 LB/CS
REGAL RONSTAR A.C.	A 2 % Ronstar in a dustless, granular formulation. All the benefits of oxadiazon herbicide. Labeled for turfgrass, golf courses and nursery use.	50 LB/BAG
REGAL RONSTAR PLUS	Granular formulation for pre-emergent weed control on turfgrass. A 2% active ingredient formulated on proven RegalChoice fertilizer. Recommended rate is 150-200 lbs./acre.	50 LB/BAG
REGAL RONSTAR PLUS I %	Granular formulation for pre-emergent weed control on turfgrass. A 1% active ingredient formulated on proven RegalChoice fertilizer. Recommended rate is 200-400 lbs./acre.	50 LB/BAG
REGALKADE 50, 37, 25	Prodiamine on a fertilizer carrier for golf courses, lawn care and residential turfgrass. Dry application rates vary based on formulation and carrier. Single application per season for excellent selective weed control. Long residual, non-staining.	50 LB/BAG
REGALKADE G	Granular pre-emergence herbicide for container-grown ornamentals. Prevents hundreds of broadleaf and grassy weeds. Excellent summer weed control.	50 LB/BAG
REGALSTAR II	The premium pre-emergent herbicide for turfgrass. Season long pre-emergent control of poa, crowfoot, goosegrass, crabgrass and most other annual weeds from single application. Apply rate at 180-200 lbs./acre. Excellent turfgrass quality response and crop tolerance.	50 LB/BAG
REGALSTAR G	Granular pre-emergent herbicide in container-grown ornamentals and in turfgrass.	50 LB/BAG
REVOLVER	For the control of annual and perennial grasses in bermudagrass and zoysiagrass. Can be used on bermudagrass greens.	4x1 QT/CS
RONSTAR G	2% granular inert carrier formulation of Ronstar, for pre-emergent weed control.	50 LB/BAG
RONSTAR 50WSP	50% WP formulation pre-emergent herbicide for turfgrass. May be phytotoxic if sprayed on green/wet turfgrass.	5x2x1 LB/CS
ROUNDUP PRODRY	Easy to measure & spray. Non-selective contact herbicide for control of plants in undesirable location. Dry formulation with no dust. 1.5 oz/gallon of water. Water soluble.	6x5x1.5 OZ/CS 23.25 LB/BOX
ROUNDUP PRO	Non-selective contact herbicide containing surfactants for more effective control.	2x2.5 GAL/CS 30 GAL/DR
ROUNDUP QUICKPRO	Easy to measure and spray. Non-selective contact herbicide for control of plants in undesirable locations. Contains glyphosate and diquat.	4x6.8 LB/CS
SENCOR 75 DF	Broadleaf weed and goosegrass weed control in established bermudagrass. Can be tank mixed with MSMA on bermudagrass.	4x5 LB/CS
SIMTROL (PRINCEP 4 L)	A liquid pre-emergent herbicide for the control of annual broadleaf weeds, grassy weeds and winter Poa anna in established turfgrass.	2x2.5 GAL/CS

SECTION I

HERBICIDES

PRODUCT	DESCRIPTION	PKG SIZE
SPEEDZONE	Controls tough weeds like clover, plantain, ground ivy and spurge with a fast-acting cool-weather response exhibiting control within hours.	4x1 GAL/CS 2x2.5 GAL/CS
SPEEDZONE SOUTHERN	Fast acting, highly selective post-emergent herbicide that is safe to use on established St. Augustine, centepede, paspalum and zoysia grasses.	4x1 GAL/CS 2x2.5 GAL/CS
SUPER TRIMEC	Broad spectrum herbicide for control of broadleaf weeds. Formulation of 2, 4-D, 2, 4-DP and dicamba.	6x1 GAL/CS 2x2.5 GAL/CS
SUREGUARD	A selective herbicide for control for outdoor use on and around container, field grown ornamental plants, conifers, selected grasses and broadleaf weeds.	4x5 LB/CS
SURFLAN 4L ORYZALIN	Selective pre-emergent herbicide for the control of annual grasses and broadleaf weeds in warm season turf, landscape ornamentals, and container-grown ornamentals.	2x2.5 GAL/CS
SURGE	A broadleaf herbicide that provides turf an amine option for fast weed control in warmer weather.	4x1 GAL/CS
TRANXIT GTA	Post emergent control of poa annua and perennial rye grass in bermudagrass. (Labeled for greens.) Remove over-seeded rye from bermudagrass in the spring.	10x3 OZ/CS 4x15 OZ/CS
TRI-POWER	A systemic 3-way herbicide effective against broadleaf weeds.	30 GAL/DR 55 GAL/DR
TRIAMINE	A liquid 3-way post-emergence herbicide. Does not contain dicamba.	2x2.5 GAL/CS 30 GAL/DR
TRIMEC 992/VESSEL	Post-emergence control of broadleaf weeds in cool and warm-season turfgrasses.	2x2.5 GAL/CS 55 GAL/DR
TRIMEC BENTGRASS	Broad spectrum herbicide for control of broadleaf weeds in bentgrass. Formulation of 2, 4-D, MCPP and dicamba.	6x1 GAL/CS 2x2.5 GAL/CS
TRIMEC CLASSIC	Broad spectrum herbicide for control of broadleaf weeds. Herbicide contains 2, 4-D, MCPP and dicamba.	6x1 GAL/CS 2x2.5 GAL/CS
TRIMEC PLUS	Post-emergence control of crabgrass, dallisgrass, nutsedge as well as broadleaf weeds in turf.	2x2.5 GAL/CS
TRIMEC SOUTHERN	Broad spectrum herbicide for control of broadleaf weeds for various warm season grasses. Formulation of MCPP, 2, 4-D, and dicamba.	6x1 GAL/CS 2x2.5 GAL/CS
TUPERSAN 50 % WP	Selective pre-emergent herbicide for control of annual weeds and grasses in turf. Effective in controlling hybrid bermudagrass in golf course bentgrass greens.	12x4 LB/CS
VANTAGE	Applied as an over the top treatment in trees, shrubs, bedding plants and ground cover to control annual grasses. Also controls perennial grasses such as common bermuda. Selective grass weed control in broadleaf plants.	5x1 GAL/CS 12x1 PT
VELOCITY	Selective post-emergent herbicide for the control of poa annua, rough bluegrass and certain broadleaf weeds in golf course turfgrass and sod farms.	5x4x2 OZ/CS
REGAL WYNSTAR	Controls wide range of annual broadleaf and grassy weeds in turf and ornamental plantings. Controls annual bluegrass. Excellent for winter weed control in warm season turfgrass. Contains simazine. Sprayable formulation.	2x10 LB/CS

SECTION II

FUNGICIDES

PRODUCT	DESCRIPTION	PKG SIZE
AGRI-MYCIN/ AGRI STREP	Antibiotic for fire blight control and other bacterial diseases in nursery and lanscape.	50x8 OZ/CS
ALIETTEWDG	Systemic fungicide for control of pythium blight on turf, ornamental and bedding plants .	4x5.5 LB/CS
ARMADA 50 WP	For control of certain foliar, stem and root diseases of turfgrass including institutional, commercial and residential lawns, sod farms, sports fields, parks, municipal grounds and cemeteries.	8x4x3 OZ/CS
BANOL	Fungicide used to control pythium blight in turfgrass and ornamentals. Can alternate with Fenox to control resistant biotypes of pythium.	2x1 GAL/CS
BAYLETON 50WSP	For the control of certain diseases on flowers, foliage, plants, shrubs, turfgrasses and shade trees.	4x4x5.5 OZ/CS 50x11 OZ/DR 88x5.5 OZ/DR
CHIPCO 26 GT FLO	Contact fungicide for control of dollar spot, brown patch, fusarium blight and other diseases on turfgrass and ornamental plants.	2x2.5 GAL/CS
CHIPCO SIGNATURE	A systemic fungicide used to control pythium diseases on turfgrass including golf courses, sod farms, and other commercial turf areas.	4x5.5 LB/CS
CHLOROSTAR DF CHLOROSTAR VI	Contact fungicide for broad spectrum disease control in turf and ornamental use. Excellent control of rhizoctonia diseases. Also effective for black algae control. (Available as flowable and DF formulation.)	4x5 LB/CS 2x2.5 GAL/CS
COMPASSWDG	A "strobilurin" family fungicide for control of many diseases, including patch diseases. Does not control dollar spot. Locally systemic.	20x8 OZ/DR 4x1 LB/CS
CONSYST WDG	"All Purpose Fungicide." Both systemic and contact fungicidal activity. Provides long lasting broad spectrum disease control for turf, nursery and ornamental use. Controls dollar spot, dreschlaria, brown patch, summer patch, fusarium blight, anthracnose and most other fungi.	4x5 LB/CS
CURALAN EG	For turf diseases found in warm and cool season turfgrasses. Controls dollar spot and diseases such as leaf spot, melting-out, red thread, pink patch, brown patch, gray snow mold, pink snow mold and fusarium patch.	4x2.75 LB/CS
DEGREE	A hydroxylanilide protectant fungicide used for control of Botrytis blight caused by Botrytis Spp. on ornamental crops.	10x1 LB/CS 4x2.5 LB/CS
DEFIANT	Thiram containing fungicide.	4x10 LB/CS
DITHANET&O	Broad spectrum contact fungicide. Safe to use on turf and most ornamentals. Excellent for leaf spot control.	4x12 LB/CS
EAGLE 40WP	Systemic fungicide (S.I.) for preventive and curative control of brown patch, dollar spot, anthracnose and other turfgrass diseases.	4x4x3 OZ/CS
ERASE	For control of algae on golf courses, nurseries and greenhouses.	2x2.5 GAL/CS
FENOX ME (MEFENOXAM)	Systemic fungicide for use on turfgrass and ornamentals. Effective control of pythium blight, phytophthora-root rot, yellow tuft, downy mildew and damping off. Alternate with Banol or Resyst to avoid resistance in turf.	2x1 GAL/CS
JUNCTION	Copper hydroxide-based fungicide with maconzeb; excellent for algae control and certain foliar diseases.	4x6 LB/CS

SECTION II

FUNGICIDES

PRODUCT	DESCRIPTION	PKG SIZE
KOCIDE 2000 TNO	High solubility and tenacity and improved rainfastness. Allows more copper active to be delivered to the disease pathogen improving the biological activity necessary for disease control.	16x3 LB/CS
PENTATHLON DF PENTATHLON LF	Broad-spectrum disease control for turfgrass and ornamentals. Available as flowable and DF formulation.	8x6 LB/CS 2x2.5 GAL/CS
PROSTAR 70 WP	Systemic fungicide for brown patch, red thread and fairy ring. No dollar spot activity. Also active on basidiomycetes.	10x1 LB/CS
RESYST	Systemic fungicide for the effective control of various plant diseases that includes downy mildew, phytophthora and pythium in ornamentals, landscapes, nurseries and bedding plants, phytophthora in conifers and pythium in turf.	2.5 GAL/CT
RHAPSODY AS	An effective broad spectrum, preventative biofungicide for the control of many important ornamental diseases such as anthracnose, black spot of roses, biotrytis, leaf spot, powdery mildew and scab.	4x1 GAL/CS
RUBIGAN AS	Systemic fungicide and growth regulator for Poa annua control. S.I. chemistry.	4x1 GAL/CS
SAVVI ME (PROPICONAZOLE)	Systemic fungicide for control of certain diseases on turfgrass and ornamentals. Diseases controlled include dollar spot, brown patch and anthracnose. S.I. chemistry labeled for ornamentals and nursery plantings.	2x1 GAL/CS
STATURE DM	For use as a spray or drench application for the control of foliar and root disease of greenhouse/nursery grown ornamental plants.	10x1 LB/CS
SYSSTAR WDG SYSSTAR GR	Dual systemic fungicide for prevention and control of many diseases including fairy ring, anthracnose, brown patch, patch diseases and dollar spot.	2x5 LB/CS 50 LB/BAG
SYSTEC 1998 FL SYSTEC 1998 WDG	True systemic fungicide for broad spectrum disease control. Available in a flowable or WDG formulation. Controls brown patch, dollar spot, anthracnose, fusarium blight and patch diseases.	4x1 GAL/CS 2x2.5 GAL/CS 2x5 LB/CS
TERRANEB SP/ TEREMEC SP	Contact fungicide for the control of pythium blight on established turf, nursery and greenhouses.	12x3 LB/CS

SECTION III

INSECTICIDES

PRODUCT	DESCRIPTION	PKG SIZE
ACEPHATE PRO 75	Contact insecticide for controlling mole crickets, fire ants, aphids, worms and many other pests in turf and ornamentals. See Orthene.	4x10 LB/CS 12x1 LB/CS
ADVION FIRE ANT BAIT	Fire ant bait used to control imported fire ants in non-crop/non-grazed areas such as residential lawns, golf courses, recreational areas and industrial sites.	8x2 LB/CS 25 LB/BAG
AKARI SC	Miticide/insecticide for use on greenhouse ornamentals, floral and foliage crops, indoor plantings and landscapes.	6x1 QT/CS
AMDRO PRO	Kills imported and native fire ants and other ants. Kills the queen and destroys the mound.	25 LB/BAG
ARENA 50 WDG ARENA 0.5 G	A broad spectrum insecticide for control of a wide range of insects infesting turfgrasses such as industrial, commercial and residential landscapes, golf courses, airports, cemeteries, parks, playgrounds, athletic fields and sod farms.	2x40 OZ/CS 25 LB/BAG
BROADCIDE GC (BIFENTHRIN) FLOWABLE GRANULAR	Pyrethroid insecticide for control of ants (including fire ants), worms, mole crickets, bill bugs, chinch bugs and other pests in turf. Available as a spray, granular and in combination with RegalChoice fertilizer. (Restricted use pesticide for golf course only.)	2x1 GAL/CS 50 LB/BAG
BROADCIDE PRO FLOWABLE GRANULAR	Same as "GC" except not for use on golf courses. (Non-restricted use Pesticide.) For landscape and lawn care.	2x1 GAL/CS 50 LB/BAG
BROADCIDE NURSERY FLOWABLE & GRANULAR	Pyrethroid (Bifenthrin) for nurseries.	2x1 GAL/CS 50 LB/BAG
CEASEFIRE	Granule bait insecticide for control of red imported fire ants.	12x2 LB/CS 15 LB/BAG
CELERO 16 WSG	A broad spectrum insecticide for control of aphids, whiteflies and mealybugs on ornamentals.	8x15 OZ/CS 50 LB/BAG
CHIPCO CHOICE	Guaranteed mole cricket control in turfgrass.	50 LB/BAG
CHIPCO TOPCHOICE	Fire ant and mole cricket control product designed to be applied over the top of turf grasses.	50 LB/BAG
CHLORPYRIFOS PRO 4	Control insects in turf and ornamental areas. Refer to specific label for rates and application methods. 4 lb Active ingredient - Chlorpyrifos.	2x2.5 GAL/CS
DELTA GARD GC	Pyrethroid insecticide for controlling ants (including fire ants), mites, mole crickets and other surface feeding insects.	12x1 QT/CS 40 LB/BAG
DELTA GARD G	Pyrethroid insecticide for controlling ants (including fire ants), mites, mole crickets and other surface feeding insects. Granular formulation	4x1 GAL/CS
SUSPEND SC	Same as DeltaGard GC, except labeled for non golf course use.	30x1 LB/CS
DIPEL PRO DF	Containing a potent strain of Bacillus thuringiensis, var. kurstaki (Btk). It is the most widely used biological insecticide in the world, registered for use on a variety of ornamentals.	5x10 LB/CS
DI-SYSTON 15 G	Granular systemic insecticide that enters the plant through the root system. Label for ornamentals, trees and shrubs. Restricted use pesticide.	8x2 LB/CS 25 LB/BG
DISTANCE FIRE ANT BAIT	Non-restricted product which eliminates the whole ant colony. Broadcast treatments for best control. Allow ant to forage for the product.

SECTION III

INSECTICIDES

PRODUCT	DESCRIPTION	PKG SIZE
DISTANCE IGR	Controls white flies, fungus gnats and other foliage and ornamental pests in greenhouses, shadehouses or nurseries.	4x1 QT/CS
DYLOX 80 T&O DYLOX 6.2 G	Provides fast-acting control of surface-feeding and soil insects, including white grubs, mole crickets, sod webworms, and cutworms.	10x5 LB/CS 30x LB/BAG
EXTINGUISH PLUS	Unique two way killing action for fire ant control. Eliminates the fire ant colony. For use on residential and commercial property, container or nursery stock, sod farms and commercial turf. Insect growth regulator and contact.	25 LB/BAG
FORBID 4F	A flowable formulation intended for control of mites and whiteflies on ornamental plantings, flowers and foliage plants.	6x8 OZ/CS
GIANT DESTROYERS (RODENT KILLER)	Incendiary for moles, chipmunks and rodents.	4/CARTON
MACH 2SC	Controls white grub larvae, including Japanese beetles, masked chafers and May/June beetles, as well as lepidopterous larvae such as cutworms, sod webworms and armyworms.	33.3 LB/BAG
MACH 2 1.5G	Controls white grub larvae, including Japanese beetles, masked chafers and May/June beetles, as well as lepidopterous larvae such as cutworms, sod webworms and armyworms.	2x2.5 GAL/CS
MALATHION	Contact insecticide for aphids, mites, mosquitoes and others. Short residual insecticide.	2x2.5 GAL/CS
MERIT 75WP MERIT 75WSP MERIT 2.5G MERIT 0.5G (ZENITH)	For control of thrips, aphids, grubs, mole crickets and Japanese beetles. Systemic uptake for long residual insecticide. Use on turf and landscapes. (See Zenith)	8x2 OZ/CS 4x4x1.6 OZ/DR 88x1.6 OZ/DR 4x4 LB/CS 30 LB/BAG
METASYSTOX R	A crop and ornamental plant protection insecticide. It provides effective control of aphids and other plant sucking insects.	2x2.5 GAL/CS
MULTICIDE - WASP AND HORNET SPRAY	Quick knock down of wasp, hornets, and yellow jackets. Aerosol spray. Reaches nests more than 20 ft. above ground.	12x15 OZ/CS
NEMACUR 10G	Insecticide/Nematicide for the control on nematodes and mole crickets in turfgrass. Refer to label for precautions and restrictions by state.	50 LB/BAG
NEMAGARD	Natural organic nematicide in a granular formulation. Refer to label for specific directions of use. Safe for turfgrass. Long residual nematode control.	50 LB/BAG
ORNAZIN EC	Botanical insecticide for use in ornamental greenhouses, shadehouses, interior scapes, nurseries, turfgrasses, shrubs, trees and ornamentals.	6x1 QT/CS
ORTHENE TT&O 97%	Contact insecticide for controlling mole crickets, ants, aphids, worms and many other pests in turf and ornamentals. Systemic insecticide.	12x.773 LB/CS 4x7.73 LB/CS
ORTHENE T.T.O.	Contact insecticide for controlling mole crickets, fire ants, aphids, worms, and many other pests in turf and ornamentals. See Acephate Pro 75.	12x1 LB/CS 4x5x2 LB/CS
PERMETHRIN PRO	For borer control on trees and shrubs. Penetrates the bark for effective control.	12x1 QT/CS 4x5 QT/CS
PROBAIT	Kills imported and native fire ants and other ants. Kills the queen and destroys the mound. Alternate brand to Amdro.	25 LB/BAG

INSECTICIDES

PRODUCT	DESCRIPTION	PKG SIZE
REGALFATE	Broad spectrum insecticide, granular for dry applications, all organic and edible with bait attractant for insects. Easy to use. Apply 75-100 lbs./acre. Good insecticide for dry application on golf courses, and around homes, etc.	50 LB/BAG
REGAL MERIT 0.20, 0.25, 0.30	RegalChoice fertilizer impregnated with Merit for control of white grubs and sod webworms. Effective insecticide for landscapes while making fertilizer application.	50 LB/BAG
SAFARI 20 SG	Foliar and systemic insect control in ornamental plants.	4x3 LB/CS
SAF-T-SIDE	Dormant oil spray, miticide and scalecide for ornamentals and trees.	2x2.5 GAL/CS 30 GAL/DR
SEVIN SL SEVIN 80 WSP	Carbaryl insecticide used to control broad spectrum of pests in turf, ornamentals and trees. Water in immediately after turf use for grub control.	2x2.5 GAL/CS 8x4x1.25 LB/CS
SHUTTLE 15 SC	A miticide for the control of Two spotted spider mite and Spruce spider mites on ornamentals and ornamental nursery plantings.	12x32 OZ/CS
SILENT GNP	Granular formulation for control of Nematodes.	50 LB/BAG
SILENT LNP	Natural Nematicide, for the control of Nematodes.	2x2.5 GAL
TALUS	Insect growth regulator for greenhouse and outdoor ornamentals and greenhouse tomatoes.	10x24x0.6 OZ/CS
TAME 2.4EC	Broad-spectrum, fast knockdown insecticide-miticide.	12x1 QT/CS
TETRASAN 5 WDG	A miticide for the control of major tetranychid mite species in egg and nymph stages of growth.	8x8x2 OZ/CS
ZENITH WSP ZENITH .5G	For control of thrips, aphids, grubs, mole crickets and Japanese beetles. Systemic uptake for long residual insecticide. (See Merit)	48x1.6 OZ/CS 30 LB/BG

SECTION IV

MICRO-NUTRIENTS

PRODUCT	DESCRIPTION	PKG SIZE
FERROMEAC AC	Provides iron and sulfur for quick greening.	2x2.5 GAL/CS 55 GAL/DR
FERROUS SULFATE	Provides iron and sulfur for quick greening. Powder form.	50 LB/BAG
LIQUICAL	For use in a balanced fertility program for turf, landscapes and nursery crops that require calcium. Manitol formulation for foliar application.	2x2.5 GAL/CS 30 GAL/DR
MAXIGREEN II	Maxigreen is a liquid chelated product with natural sugars (glucoheptonate) that contains potassium, magnesium, sulfur, iron, boron, manganese and zinc. Maxigreen promotes and stimulates chlorophyll production for better color and vigor. Generally used during warmer months.	2x2.5 GAL/CS 30 GAL/DR 55 GAL/DR 250 GAL/TANK
MULTIGREEN II	A liquid water soluble organic blend of metal chelates of iron, zinc, copper and manganese. Labeled for turfgrass and ornamentals to improve root growth, color and stress tolerance. Excellent for newly seeded lawns and greens. Chelated with natural sugars (glucoheptonates). Labeled for ornamentals and trees. Use with herbicides and PGR's to offset possible discoloration. Use during Spring, early Summer and Fall to early Winter.	2x2.5 GAL/CS 30 GAL/DR 55 GAL/DR 250 GAL/TANK

FERTILIZERS

PRODUCT	DESCRIPTION	PKG SIZE
AMMONIUM SULFATE 21-0-0	21-0-0 fertilizer in granular form for landscapes, golf courses and ornamental crops. Specifically designed for early green-up, not long lasting.	50 LB/BAG
DAP	(18-46-0) Diammonium Phosphate.	50 LB/BAG
GYPSUM	Calcium sulfate. Mini pelletized. Removes sodium while adding calcium. Does not change the soil pH.	50 LB/BAG
LIMESTONE (PELETIZED/BULK DOLOMITIC & CALCITIC)	Ground powder limestone: dolomitic for Tees and Greens. Bulk quantities for fairways, sport complex and residential use. pH adjustment with calcium and magnesium.	50 LB/BAG
REGAL LIQUIGREEN & LIQUIGREEN PLUS	Slow release liquid, specifically formulated ureaform, fertilizer (30-0-0, 18-0-0 and various others) for turf, tree, and ornamental use. Ideal for turf and horticulture applications where consistent slow release non-phytoxic nitrogen is desired. Also available with 2% humates as LiquiGreen Plus. Large quantity bulk available for shipment. Other analysis available to fit most growing needs. LiquiGreen is engineered to maximize plant growth in harmony with soil chemistry.	2x2.5 GAL/CS 30 GAL/DR 55 GAL/DR 275 GAL/TANK
REGAL LIQUID PHOSPHATE 10-34-0	Liquid phosphate fertilizer, 10-34-0 for liquid applications to turfgrass or ornamentals. May be tank mixed with other sprays to supply P ₂ O ₅ .	2x2.5 GAL/CS 30 GAL/DR 55 GAL/DR
MAGNESIUM SULFATE/EPSOM SALT	To correct magnesium deficiencies. Sprayable formulation.	50 LB/BAG
MAP	10-50-0 Monoammonium phosphate	50 LB/BAG
MILORGANITE	(6-2-0) Organic slow release nitrogen and phosphate, greens grade and fairway grade.	50 LB/BAG
MURIATE OF POTASH	(0-0-60) KCl	50 LB/BAG
SPRAYABLE MURIATE OF POTASH	Sprayable, soluble. (0-0-62) K ₂ O.	50 LB/BAG
NUTRALENE	Methelene Urea (40-0-0)	50 LB/BAG
POLYMER COATED SULFUR COATED UREA	Delayed release urea nitrogen.	50 LB/BAG
POTASSIUM NITRATE	Mini prilled for greens. (13-0-46).	50 LB/BAG
POTASSIUM SULFATE	(0-0-50) Chlorine free source of potassium.	50 LB/BAG
REGALITE	Ureaform slow-release microbe feeding, root enhancing, non-burning, nitrogen. (38-0-0)	50 LB/BAG
SUPER RAINBOW 10-10-10	Water-Soluble (10-10-10) granular fertilizer.	50 LB/BAG
SUPER RAINBOW 16-4-8	Water-Soluble (16-4-8). Granular fertilizer Super Turf grade with micronutrients added.	50 LB/BAG
SUL-PO-MAG	Potassium fertilizer plus sulfur & magnesium (0-0-21+ 11-22-4)	50 LB/BAG
UREA	Water soluble, quick release nitrogen. (46-0-0)	50 LB/BAG
REGAL SOLUGREEN	Sprayable fertilizer for liquid applications. (15-0-15), (20-20-20), (25-5-20), (13-0-44), (28-8-18), (20-10-20).	25 LB/BAG

REGAL CHOICE FERTILIZERS

PRODUCT	DESCRIPTION	PKG SIZE
REGAL FAIRWAY FERTILIZER 32-3-12 UF	Slow release nitrogen from ureaform.	50 LB/BAG*
REGAL FAIRWAY FERTILIZER 32-3-12 SCU	Delayed release fertilizer from PCSCU fertilizer	50 LB/BAG*
REGAL FAIRWAY FERTILIZER 32-3-12 MU	Slow-release nitrogen from methylene urea	50 LB/BAG*
REGAL FAIRWAY FERTILIZER 8-2-34	Fairway grade fertilizer for fall potash applications.	50 LB/BAG*
REGAL GREENS FERTILIZER 26-0-22	Non-burning, micro-prilled, slow-release Methylene urea + potassium nitrate	50 LB/BAG*
25-0-22	Ureaform + potassium nitrate	50 LB/BAG*
26-4-20	Methylene urea + potassium nitrate + MAP	50 LB/BAG*
25-4-20	Ureaform + potassium nitrate + MAP	50 LB/BAG*
REGAL N & K FERTILIZER 21-0-21	Fairway grade fertilizer for a 1:1 ratio of N and K. Slow release nitrogen from PCSCU and ureaform.	50 LB/BAG*
REGAL P, K, & S FERTILIZER 5-24-25	Greens grade fertilizer for high P, K (SOP) and S requirements.	50 LB/BAG*
REGAL P & K FERTILIZER 9-23-30	Fairway grade fertilizer for high P and K (MOP) requirements.	50 LB/BAG*
REGAL STARTER FERTILIZER 11-24-22	Micro-prill, starter fertilizer. Correct P and K deficiencies at the start of new plantings. Available with Regal Crown.	50 LB/BAG*
REGAL FERTILIZER 12-5-31	Slow release N combined with high K from SOP.	50 LB/BAG*
REGAL FERTILIZER 19-0-19 WITH MINORS	50% N from UF, plus 2% Fe, 2% Mg, 2% Mn	50 LB/BAG*
NOTE: Custom blended fertilizer products available upon request.		
* Available in 1000 lb. or 2000 lb. bulk bags.

SECTION VII

SPECIALTY PRODUCTS

PRODUCT	DESCRIPTION	PKG SIZE
AQUATHOL K	Aquatic herbicide for lakes and ponds. Endothal ai.	2x2.5 GAL/CS
BIRCHMEIER SPRAYERS	Backpack sprayers	1 EACH
CUTRINE PLUS	Chelated copper for aquatic weed and algae control.	4x1 GAL/CS 2x2.5 GAL/CS
CUTRINE PLUS G	Granular formulation of Cutrine Plus	4x10 LB/CS 30 LB/BG
DRUM PUMP	All plastic non-corrosive.	
DY'ON "BLUE"	The original dye spray marker. Available in blue. Color lakes and ponds. Temporary color.	4x1 GAL/CS 30 GAL/DR
DY'ON "GREEN"	The original dye spray marker. Available in green. Color lakes and ponds. Temporary color.	2x2.5 GAL/CS
DY'ON JR.	Spray dye marker in quart containers. Squeeze bottles to measure 1-2 ounces.	12x1 QT/CS
DYON BLACK	Deep black pond/lake dye for brown colored water.	2x2.5 GAL
EARTH TEC	#1 recommended aquatic algae and bacteria control for ponds, lakes and water reservoirs. Safe to fish. Refer to label for application rates. May be used in irrigation and potable water.	6x1 GAL/CS 5 GAL/DR
EASY MARKER HANDLE	Marking paint applicator.	1 PER BOX
EASY MARKER PAINT	Boundary and other line marking paint color: white, red, yellow, blue, green, traffic white, traffic red and traffic yellow.	12x17 OZ/CS
FOAM-X	Regal's 10% concentrate silicone defoamer for the control of excess foam.	12x1 PT/CS
FOMALOT	Concentrate foam solution for turf markers.	4x1 GAL/CS
HINDER	Animal repellent for commercial and residential use.	4x1 GAL/CS
HYDROTHOL 191	Aquatic herbicide for lakes and ponds.	2x2.5 GAL/CS
K-TEA	Chelated copper for aquatic algae control.	2x2.5 GAL/CS
KOMEEN	An aquatic herbicide for use in slow moving or quiescent bodies of water including fish ponds, fire ponds, freash water lakes, fish hatcheries and potable water reservoirs.	4x1 GAL/CS
NUWAY BALL WASH TANK CLEANER	Non-toxic, chemical cleaner for golf course ball washers and spray tanks, non-rancid.	4x1 GAL/CS
ORGANIC GRO	Fulvic solution that increases soil CEC and butterfly capacity for maximum nutrient uptake.	2x2.5 GAL/CS
BIG FOOT ROTARY SPREADER	Regal designed fertilizer push spreader, with flotation tires. Adjustable design for uniform applications.	1 EACH
REGAL CROWN	Regal plant growth stimulator for superior root and plant development. Regal Crown contains hormones: auxins, gibberellins and cytokinins for plant stress recovery and new plant root growth. Labeled for ornamental plant use. The original root simulator and still the best.	4x1 GAL/CS 30 GAL/DR

SECTION VII

SPECIALTY PRODUCTS

PRODUCT	DESCRIPTION	PKG SIZE
REGAL CALIBRATOR JUG	Calibrate boom sprayer, the easy, accurate way.	1 EACH
REGAL SAN-SEAL	Regal sealing material for applications to sand traps. Can prevent clay from discoloring and sand slides off slopes or bunker faces. Seal clay, trap bottoms.	2x2.5 GAL/CS
REGAL SOIL SAMPLER	Regal soil probe for collecting samples for soil analysis.	1 EACH
RENOVATE	Aquatic Herbicide for control of emerged, submersed and floating aquatic plants.	12x1 QT/CS
RESERVE H₂O	A water absorbent polymer designed to retain water and plant nutrients during droughts and water shortages. Can also be used in newly established landscape beds.	4x5 LB/CS
REVIVE	Biological water quality enhancer for use in ponds, slow streams and small lakes.	20x8 OZ/CS
TRUGREEN	Color dormant or discolored turf with green TruGreen turfgrass paint.	4x1 GAL/CS

SECTION VIII

PLANT GROWTH REGULATORS

PRODUCT	DESCRIPTION	PKG SIZE
ATRIMMEC	Systemic plant growth regulator for chemical pinching and pruning of ornamental plants. Refer to label for specific application rates and plants.	12x1 QT/CS 4x1 GAL/CS
CHIPCO PROXY	Growth regulator for use on turf areas (except residential turf) to suppress growth, thus reducing the frequency of mowing and the volume of clippings collected. Cool season turf.	2x2.5 GAL/CS
CUTLESS 50W	Turf growth regulator that reduces leaf blade and stem internode elongation in turfgrasses which results in a more compact growth form.	4x4x8 OZ/CS 30x8 OZ/DR 60x8 OZ/DR
CUTLESS 0.33% GRANULAR	A plant growth regulator for shoot growth suppression in landscape ornamentals resulting in more compact growth and reduced trimming.	21 LB/CT
EMBARK 2-S	A plant growth regulator to suppress seedhead formation and to regulate the vegetative growth of various turfgrass species and woody ornamentals.	4x1 GAL/CS
EMBARK T&O	Slows growth of turf for mowing reduction; eliminates seedhead development with properly timed applications; Growth regulation of over 25 groundcovers, ornamentals and shrubs.	4x1 GAL/CS
LAUNCH	Bio-stimulant for newly seeded/sodded turf.	2x2.5 GAL/CS
PRIMO WSP	Plant growth regulator for warm and cool season turfgrasses. Reduces mowing frequency and grass clippings and aids in establishing overseed in bermuda stands. Shortens internodes. Improves stress tolerance.	4x16x4 OZ/CS

TO ORDER CALL 1.800.621.5208 OR GO TO WWW.REGALCHEM.COM

SECTION VIII

PLANT GROWTH REGULATORS

PRODUCT	DESCRIPTION	PKG SIZE
REGAL CROWN	Plant bio-stimulant that is engineered to stimulate root development of both monocots (grasses) and dicots (broadleaf) plants. This root growth stimulation naturally improves nutrient and water uptake to improve the overall health of the plant.	4x1 GAL/CS 30 GAL/DR
SUMAGIC	A growth regulator for a wide variety of ornamental crops. Reduces plant height by reducing internode elongation through inhibition of gibberellin biosynthesis.	4x1 QT/CS 4x1 GAL/CS

SECTION IX

WETTING AGENTS/SURFACTANTS

PRODUCT	DESCRIPTION	PKG SIZE
DI-AQUA	Non-ionic organic wetting agent for chemical applications.	4x1 GAL/CS
DI-AQUA PLUS	Non-ionic organic wetting agent plus a bio-activator. Specifically formulated for the application of Roundup/Glyphosate, Vantage herbicides	4x1 GAL/CS
COLOR-AIDE	Spray adjuvant, spreader sticker, pH buffer with color indicator. Patented. Improves performance of pesticide chemicals.	4x1 GAL/CS
EXHALT 800	Product to control evaporation of water from the plant.	4x1 GAL/CS
OASIS XL	Bio soil surfactant that is effective in allowing water to move freely in soil. Does not bio accumulate around the roots of plants.	2x2.5 GAL/CS 30 GAL/DR 55 GAL/DR
TENSION AID LIQUID	Turf wetting agent for monthly applications to improve water penetration for golf course greens and fairways. Recommended strictly as a preventive program to aid against localized dry spot and dry wilt.	2x2.5 GAL/CS 30 GAL/DR 55 GAL/DR
TENSION AID PELLETS	Turf wetting agent in a pelletized form; applied in a hand-held drencher/applicator	30 TAB/CS
